What is the Government requesting offerors to submit with our packages regarding the SF1408?	1) The SF 1408 is provided to give Offeror's an understanding of the specific procedures that are considered part of an adequate accounting system. Offerors are not required to submit an SF 1408 with their proposal. Offeror's should provide, as part of its proposal response, official documentation, from either a successful DCAA audit of the Offeror's accounting system or a letter from DCMA documenting its approval/adequacy of the Offeror's accounting system. 2) The Government has requested a pre-award survey for all BOA holders. If DCAA does not conduct a pre-award survey, it is because the BOA holder has had a recent DCAA or DCMA review of its accounting system which showed it was adequate. When a pre-award survey is conducted, DCAA will notify the BOA holder upon completion of the survey of the BOA holder's accounting system status. 3) Accounting system adequacy is determined via the responsibility determination made by the Contracting Officer prior to task order award.
