MEMORANDUM FOR US Army Sustainment Command (ASC) Organization

SUBJECT: Labor Day Safety Message

1. Labor Day is a time to celebrate the contributions of workers to our Nation's strength, prosperity, and well-being. Labor Day also marks the beginning of fall and an end to the 101 Critical Days of Summer.
2. While many of the risks associated with summer decrease, fall presents its own hazards. Watch your speed while driving; particularly around school zones, as children are heading back to school. Make sure you wear all appropriate protective gear while operating any tools you use to do your yard work. As we prepare for cooler temperatures, remember to have the heating unit in your home checked by a professional and have carbon monoxide detectors installed.
3. Thank you for all your efforts this summer and your continued dedication to staying safe. Enjoy your Labor Day and whatever your plans are, keep safety in mind and look out for one another. Army Safe is Army Strong!

A handwritten signature in black ink, reading "D. Scott Welker", is positioned above the typed name.

D. SCOTT WELKER
Executive Director for
Army Sustainment Command
