

Team -

As you are probably aware from the news this weekend, Congress passed, and the President signed another Continuing Resolution Authority (CRA) which precluded a lapse in appropriation. It also appears that there are agreements for a final budget for FY 11. All expectations are that we will have a final FY 11 appropriation prior to the expiration of this new CRA (Friday).

Thank you for your patience and understanding during the confusion preparing for the potential government shutdown last week. Although this had a direct impact on you personally, you all demonstrated professionalism, and unwavering support for our Warfighters.

Thank you for what you do for the Army every day.
