

U.S. ARMY SUSTAINMENT COMMAND

Mr. D. Scott Welker Deputy to the Commander

Mr. D. Scott Welker serves as the Deputy to the Commander for the U.S. Army Sustainment Command (ASC), a position he has held since October 2005. As Deputy to the Commander, Mr. Welker leads a global organization responsible for sustaining Army and Joint Forces in the US and abroad in support of combatant commanders. Mr. Welker leads and directs the Command's global logistics mission, encompassing a workforce of approximately 300 military personnel, 2,200 civilian employees, and 70,000 contractor employees. The ASC links strategic and operational sustainment capabilities to tactical units, integrates and synchronizes materiel distribution, and enables unit readiness.

Mr. Welker's previous assignment was Deputy to the Commander for ASC's predecessor, the U.S. Army Field Support Command.

He earned a Bachelor of Arts degree in Business and Economics from Washington State University, and a Masters of Business Administration degree from St. Ambrose University in Davenport, Iowa.

He has served in numerous assignments since entering the Government workforce as an ammunition management intern at Savanna Army Depot in Illinois. Upon graduation from the intern program, he was assigned to the Armament, Munitions and Chemical Command in Rock Island, Illinois to continue work in ammunition management. From November 1992 to September 1994, Mr. Welker served in the Defense Ammunition Directorate. His responsibilities included the integration of the Ammunition Stockpile Management Plan, munitions operational deliberate planning, and customer support functions. He next served as a logistics management specialist in the Business Management Directorate. He spearheaded the supply depot operations mission and was responsible for establishing the Ammunition Tiering Concept Plan. Mr. Welker was next assigned as Chief of the Operations Division, DCS for Army War Reserve, under the Industrial Operations Command. During this tenure, he was responsible for all prepositioned operations associated with the Army War Reserve Support Command mission.

From November 1997 through July 2001, Mr. Welker served as the civilian executive assistant to the Commanding General of the U.S. Army War Reserve Support Command. He managed the overall mission of prepositioned operations, resource management, systems integration, and materiel management. Mr. Welker then served as the director of the Joint Munitions Command's Production Directorate. In that role, he executed the ammunition production missions of the Command and oversaw planning, programming, and budget preparation to ensure on-time delivery of quality ammunition. He was also responsible for creating and maintaining an environmentally sound, safe, secure, and responsive industrial production base. He was subsequently assigned as the Army Field Support Command's first civilian Chief of Staff.

On October 30, 2005, Mr. Welker was appointed as a member of the Senior Executive Service. He has earned many awards and decorations, and was selected as a Presidential Rank Award Winner in the Meritorious Executives category in 2010.

Mr. Welker is a native of the state of Washington, and has three children.
